**Assunto:** RE: Calibration Particles Counter [AFERITEC]  
**Anexos:** Aferitec 213300.pdf

Dear Vinicius

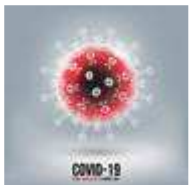

Apologies for the delay in getting back to you, but I was on a customer site all this week.

Please find the attached quotation for the calibration of your particle counter.

If you have any questions, please feel free to contact me.

Kind regards

Ian Norman

**Subject:** Calibration Particles Counter [AFERITEC]

Hi Ian,

Please, could you send us a quote for calibrating our particle counter according to the attached certificate?

We are checking the equipment arrival forecast with DHL and we schedule the calibration week.

In addition to the calibration, we need to make adjustments (which is already included in your calibration process) and repair the equipment, as it is no longer holding battery charge, I believe that it will be necessary to change the internal battery. Could you budget it too?

Coming up with news from DHL I will let you know. We are planning to ship the equipment on 02 february.

Thank you, hugs!

Kind regards,

**VINICIUS NUNES**
